Parallax Website | Newton School ([link](#))

October 2022 - October 2022

The parallax effect has been around for years in classic video games, but it became a trend in the web design world. This cool effect is now commonly seen as part of the scrolling feature of a web page. It uses multiple backgrounds which seem to move at different speeds to create a sensation of depth (creating a faux-3D effect) and an interesting browsing experience.
